Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

(Dr. Kayden Gerlach)

FT Press, 2005. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Harvard Business Review's Review of The Next Global Stage The Next Global Stage:Challenges and Opportunities in Our Borderless World Kenichi Ohmae (Wharton School Publishing, 2005) In the early 1900s, German physicist Werner Heisenberg laid the foundations for quantum mechanics, a set of rules showing that at the subatomic level Newtonian physics was irrelevant. Just as quantum mechanics upstaged Newton, says strategist Kenichi Ohmae, a radical new model is upending old notions about the global economy. In this sprawling book, Ohmae warns that governments, businesses, and leaders that cling to their Newtonian approaches will become irrelevant themselves. The heart of Ohmae's thesis will be familiar to readers of his previous books, including *The Borderless World* (1990) and *The Invisible Continent* (2000): In the new global economy, the nation-state, and the protectionist economic thinking that goes with it, is obsolete. Nation-states have borders, armies, flags, currencies, and a development-stifling instinct to protect their economies from the outside world. As global economic players, they're being displaced by "region states"-borderless centers of vibrant economic activity that welcome global trade and investment, like the Shutooken metropolitan area of Japan and Guangzhou in China. If the rules of the old economy no longer apply, Ohmae ventures, then neither do the old rules of business. Fair enough. The problem is, he says, no one knows, or can know, what the new rules are: "By the time any rule book or user's manual appears,the 'new rules' will already be obsolete." What business leaders can be sure of, Ohmae argues, is that massive change without requires massive change within. That means wall-to-wall rethinking of corporate mission, strategy, and organization. Companies must cut loose from their "ancestry" and, for instance, compete by selling...
