ARE YOUR MEDS MAKING YOU SICK?: A PHARMACISTS GUIDE TO AVOIDING DANGEROUS DRUG INTERACTIONS, REACTIONS, AND SIDE-EFFECTS

Hunter House Publishers. Paperback. Book Condition: New. Paperback. 240 pages. Dimensions: 8.4in. x 5.4in. x 0.8in. Dangerous drug interactions and common drug-induced illnesses are a hidden epidemic in the USA possibly throughout the world where unqualified use and abuse of prescription drugs is becoming commonplace and many doctors prescribe multiple meds because they don't have the time to fully diagnose. In the United States alone known adverse drug interactions cause death, injury or hospitalization to more than 2 million people yearly, and this could be the tip of the iceberg as millions of cases go undetected or unreported. Robert S. Gold, RPh, MBA, a clinical hospital pharmacist and affiliate instructor of clinical pharmacy at Purdue University with over 27 years of experience, shows the reader how to think like a clinical hospital pharmacist. He lists his 16 Rules of Safe Medication Use that, if followed, can help prevent the common problems that medications can cause; gives specific examples and scenarios featuring the thirty-six drugs that are the most common offenders; and explains how even seemingly good drugs can harm a patient's kidney, liver, brain and heart if the patient's medical history and physical vulnerabilities are not taken into account. Are Your Meds Making You Sick A Pharmacists Guide to Avoiding Dangerous Drug Interactions, Reactions and Side-Effects is highly accessible and formatted for quick reference by any layperson. As the U. S. population ages and there is a steady increase in the number of prescribed and OTC medications and alternative remedies, this book will only become more important. When pharmacist Robert Gold's father began suffering side effects from medication, his expertise in the field was a quick resource. As a pharmacist for over 27 years, however, he realized most people don't have the experience and knowledge to identify adverse drug reactions or common drug-induced...
