If the station of observation were situated in a balloon floating over a level plain the only consideration to be taken Reduction to sea level. ii 1 1 into account would be the greater distance from the earth's centre. Now the attraction of a sphere of radius R on a point on its surface is g_0 ---where G is the attraction of unit mass. If the point is above the surface $4 TT R$ by the height h the attraction becomes $g=G...$
